CORE SCIENCE PROGRAM (144 UOC)

SCIF1121 or
SCIF1131
(6UOC)

GEOS1701
Environmental
Systems & Processes
(6UOC)

CHEM1011 or
CHEM1031
Chemistry A or
Higher Chemistry A
(6UOC)

MATH1131 or
MATH1141
Maths 1A or
Higher Maths 1A
(6UOC)

MATH1231 or
MATH1241
Maths 1B or
Higher Maths 1B
(6UOC)

PHYS1121 or
PHYS1131
Physics or High Physics 1A
(6UOC)

CLIM2001
Atmospheric
Science
(6UOC)

CVEN2701
Water & Atmospheric
Chemistry
(6UOC)

MATH2241
Intro to Atmosphere &
Ocean Dynamics
(6UOC)

6UOC from:
ARTS2241, ARTS2242, GEOS2291,
GEOS2711, GEOS2811, MATH2301,
MATH2901

CLIM3001
Climate Systems
Science
(6UOC)

MSCI3001
Physical
Oceanography
(6UOC)

SCIF3041
Research
Internship B
(6UOC)

12UOC from:
CVEN3501, GEOS3761,
GEOS3821, GEOS3921

Science elective
(6UOC)

48 UOC
Honours Year

- Science and free electives (unless otherwise indicated) may be at any level provided the total Level 1 and GEN##### courses does not exceed 72 UOC;
- 'Science' courses are defined as per Table 1;
- Science electives can be used to complete a double major;
- **Recommended Electives** (these 6 UOC courses are not required but are recommended as good complementary courses for this major when choosing electives):
BIOS1101, COMP1917, GEOS1211, PHYS1221 or PHYS1231, MATH2111, MATH2130, MATH2601, PHYS2120, PHYS2210, MATH3041, MATH3101, MATH3121, MATH3201

General
Education
Elective
(6 UOC)

- This breadth component is not completed where students undertake a concurrent degree program. Instead students combine the core Science program with the core for the other UNSW program;
- Free electives in the single degree may be used to complete a double major.
- Students cannot take 'Science' or GEN# courses as their General Education electives.

SINGLE DEGREE SCIENCE PROGRAM (192 UOC) [144 UOC core + 48 UOC breadth]

- In the single degree program a maximum of 72 units of credit of level 1 courses can be taken, including any GEN##### course or mainstream level 1 course taken to fulfil the 12 UOC general education requirement.
