

3972 Bachelor of Science (Advanced Science) with a major in Climate Systems Science

Advanced Science Core Requirements (144 UoC)

Recommended Electives

These courses are not required for this major, but are recommended as good complementary courses when selecting electives:
BIOS1101, COMP1917, GEOS1211, PHYS1221 (or PHYS1231), MATH2111, MATH2130, MATH2601, PHYS2120, PHYS2210, MATH3041, MATH3101, MATH3121, MATH3201

Single Degree Program = 192 UoC (144 UoC Core + 48 UoC Breadth)

Breadth (48 UoC)

Breadth component is not completed when students undertake a dual degree program.

*General Education:

Students cannot take 'Science' or GEN# courses for their General Education electives.

Rules

- The Climate Systems Science major is 84 UoC
- The Adv. Science Core is comprised of 'Science' courses so that the *major + SCIF + 'Science' electives + Honours = 144 UoC*
- Students must declare their major before enrolling in Level 2 courses
- Students must complete at least 24 UoC of 'Science' Level 1 courses
- In the single degree, students cannot complete more than 72 UoC of Level 1 courses, including any GEN*#### courses or mainstream Level 1 courses taken for General Education
- Students must complete at least 30 UoC of 'Science' Level 3 courses
- Students may use their Science and/or free electives to complete a double major
- Free electives may be from Science or from any other Faculty at UNSW
