LEARN, EXPLORE, DISCOVER...

UNSW Open Day
Schools Interactive Activities
Saturday 6 September 2014

School of Chemistry

Can you imagine the world without chemistry? Medicine, food, fuels, plastics, computers, clothing, and so much more depend on chemistry! Come and experience the wonder of chemistry with hands-on activities like the Amazing Reaction Show and the Colourful Chemistry exhibit. Visit our Chemistry Lawn and discover the importance of chemistry in our daily lives.

Session times: 10 – 10.30am; 11 – 11.30am; 1 – 1.30pm; 2 – 2.30pm; 3 – 3.30pm

School of Biological, Earth and Environmental Science (BEES)

Earth or Environmental Science might be just right for you. Look for our marquee on the main Science Lawn, map reference G13.

The world’s environments are fascinating and incredibly diverse, and so are the study options within the School of BEES. The Climate Change Research Centre, for example, plays a key role in understanding and predicting climate change, and the Centre for Marine Biotechnology explores the untold scientific and technological promise of manipulating matter on Earth or in space.

Come and experience it for yourself!

School of Materials Science and Engineering

Materials Science and Engineering (including dual degrees with Biomedical Engineering & Commerce) School of Materials Science and Engineering Central Lecture Block 2 E19

Materials Science and Engineering students bring materials innovation to life by combining physics, chemistry, and mathematics to design and develop new materials that can transform the world. Join us to learn about the amazing world of materials science.

School of Biomedical Engineering

School of Biomedical Engineering Science Lawn, map reference G13

The School of Biomedical Engineering is at the forefront of medical science, where our research is applied to answer real-world problems. Join us to find out about our cutting-edge projects, meet our students and researchers, and see how we make alginate beads. And see how we make alginate beads. Today you can! Visit our display and make some DNA.

School of Optometry and Vision Science

School of Optometry and Vision Science Keith Burrows Theatre J14

The School of Optometry and Vision Science offers a unique opportunity to learn about the fascinating world of human vision, health, and disease. Visit our display and meet our students and researchers. And see how we make alginate beads. Today you can! Visit our display and make some DNA.

School of Psychology

School of Psychology Physics Theatre K14

Psychology covers so many interesting and diverse areas it is impossible to list them all. Are you interested in behaviour, decision making, or clinical psychology? Find out about Psychology at UNSW with our interactive displays. Find all this in our marquee on the main Science Lawn, map reference G13.

School of Physics

School of Physics Physics Theatre K14

Physicists search for the laws which govern the behaviour of the universe - from the smallest sub-atomic particles, to the largest structures of the cosmos. Join our staff and students and find out about the exciting work we do on campus and the services we offer.

School of Life Sciences

School of Life Sciences Biomedical Theatre A E27

The Bachelor of Life Sciences is a unique and innovative program that offers a flexible approach to exploring the life sciences, with a focus on the health sciences. Join us to learn about the opportunities available to you at UNSW, and how our program can help you achieve your goals.

School of Medical Sciences

School of Medical Sciences Physics Theatre K14

The School of Medical Sciences offers a range of courses and programs, including Bachelor of Biomedical Science, Bachelor of Biomedical Science (Hons), and Bachelor of Biomedical Science (Hons) Advanced. Join us to find out more about these programs and how they can help you achieve your career goals.

School of Nursing

School of Nursing Clinical Learning Centre, Barry and Lynne Shepperson Building, map reference H11 (East end)

UNSW answered by an orange army of students and staff. Come and experience it for yourself!
