Free Electives may be from Science or from any other Faculty at UNSW.

General Education courses cannot be Science courses, and Science students cannot take GEN courses for their General Education.

Recommended Electives are not required, but are recommended as complementary courses for this major when choosing electives.

Students cannot complete more than 72 UoC of Level 1 courses including any GEN courses and Level 1 courses taken for General Education.

#The best (but not only) way to complete Stage 3 of 3965 with an Geography Major is to complete: BIOS6671, GEOS3911, GEOS3761, GEOS3921 plus an additional 12UOC Stage 3 Geography. If this is followed 18 UOC of Prescribed Electives are necessary. If GEOS3761 is not chosen in the Stage 3 core then it must be done within the Major and one less Prescribed Elective is completed.
